

Commercial Service

HB McClure offers a broad range of commercial services, and we have the expertise and resources to be your one-stop partner. With HB McClure, you'll get a commercial service provider that is...

Responsive. We have a dedicated service coordinator and thoroughly equipped team of technicians ready to serve you.

Experienced. More than 60% of our business is dedicated to commercial clients.

Committed. We are an employee-owned company that provides unbiased counsel and builds long-term relationships.

True Planned Preventive Maintenance HB McClure's true planned preventive maintenance helps you avoid mechanical problems and system failures while keeping your equipment running at peak efficiency. We'll provide a year-round maintenance plan that will help you control costs and maximize the life of your equipment.

Responsive On-Demand Service Your company may already have a facility management team, but at times you may need extra support or technical expertise, especially if you have a breakdown. That's why HB McClure offers on-demand service. We're exceptionally responsive, easy to work with, and happy to lend a hand.

Equipment Repair & Replacement HB McClure's commercial service team delivers repair and replacement services as well as specialized services, including R-Stamp and boiler repairs. HB McClure supports each client with a dedicated service coordinator and a team of technicians with remote field service capabilities.
