

GOLD SHIELD[®]

MEMBERSHIPS

Ensure Your Family's Comfort and Safety, Protect Your Investments, Reduce Your Costs

For Your Family's Comfort and Safety

Our goal is to build lasting relationships and create WOW experiences with our valued customers. Your comfort is our comfort. Our mission is to provide you and your family with a positive and rewarding experience.

Our **Gold Shield Memberships** are designed to help protect your home's systems by preventing problems and equipment failures through regular preventive maintenance and inspection. You can count on our team of expert customer care coordinators and certified technicians to keep your systems running at peak performance. Save money on utility costs and bypass unexpected, expensive repairs and costly replacements. Our memberships renew annually and are affordable and comprehensive to provide year-round peace of mind. *Homes Serviced Better.*

Membership Benefits:

- Reduced service fees on future repairs of covered equipment
- Reduced energy consumption up to 20%
- Longer equipment life
- Reduced likelihood of emergency calls
- Priority service and preferential scheduling
- 1-year warranty on parts/labor on any repairs
- New replacement system discounts
- Hassle-free auto renewal
- Yearly or monthly payment plans
- Comprehensive overview of our findings with annual inspection

Plumbing Safety Inspections

- Test a water sample for hardness, iron, and pH & chlorine levels
- Flush sediment from tank type water heater
- Inspect proper operation of all plumbing fixtures
- Test water main pressure to confirm it is at a safe operating level
- Inspect all plumbing shut off valves
- Inspect all plumbing safety valves (exercising valves is recommended to maintain safety)

For a full and updated list please visit hbmcclore.com/gold-shield-maintenance-plumbing-inspection/

Heating & Cooling Inspections

- Safety test of all controls and verify thermostat operation
- Measure amp/volts on motors and inspect electrical connections
- Test refrigerant system and visually check for refrigerant leaks
- Check draft of flue/chimney and vacuum flue pipe
- Replace fuel filter/pump strainer/nozzle

For a full and updated list please visit hbmcclore.com/gold-shield-membership

*not all points of tune up applicable on all systems

Electrical Inspections

- Inspect the main panel
- Inspect exposed wiring in the basement or near the box. (Does not include the attic or under insulation)
- Inspect entry of the main wire into the home
- Test smoke alarms
- Inspect for proper grounding and bonding
- Ensure electrical system is code compliant
